

Cameron Jibril Thomaz, more commonly known as Wiz Khalifa, is a multi-talented American rapper, singer, songwriter, and actor. From his music to his persona, Wiz emanates an aura of uniqueness, which extends to his passions, and notably, his dedication to fitness. If you have followed Wiz's journey on his social media platforms, you would already know that fitness plays a pivotal role in his life. When it came to carving out a personalized home gym space that reflected his own style and workout needs, Wiz chose to put his trust in Ardent Fitness.

CLIENT SHOWCASE

WIZ KHALIFA

SERVICES PROVIDED BY ARDENT FITNESS:

- 3D renderings and gym design
- Fitness/rehabilitation equipment
- Equipment setup & installation
- Fitness flooring & installation
- Zogics Gym Wipes

At Ardent Fitness, we understand that every client has their unique needs and fitness goals. Our team took the opportunity to not only cater to Wiz's specific workout preferences but also to bring his unique style to life within the confines of his home gym. In the end, we created a space that featured a sleek design, high-quality functional training & strength equipment, and a layout that prioritizes usability and functionality. The result is a home gym that doesn't just cater to Wiz's fitness goals but is also a reflection of his personal style and brand.

Strength & functional training at its best

Throwdown Plyo Boxes, free weights, turf flooring, and wall mirrors provide the perfect combination of equipment to make the most out of every workout.

TRX Strength Bays

TRX Strength Bays are great for more than just a workout—they provide ample storage space for fitness accessories, like kettlebells and medicine balls, anchoring points for suspension training, and much more.

Hoist Fitness + TRX

Along with a variety of TRX fitness accessories, the Flat/Incline/Decline Bench from Hoist Fitness blends beauty with brawn and delivers versatility for multiple exercises and workouts.

Custom logo inlay turf

Gym flooring doesn't have to conform to black rubber flooring or green turf. Ardent Fitness and Ecore created this custom logo inlay with Wiz Khalifa's branding and installed FlexTurf Monster flooring for his home gym. FlexTurf Monster is made with a VCR ShockPad for increased durability and force reduction.

Optimizing the gym layout

Ardent Fitness worked with Wiz's team on the layout and decor to make the most out of the home gym space. From equipment selection and delivery to full installation, our team transforms rooms into fully functional training centers in residential and commercial settings.
